September 12, 2006

Presentation: Overview of Special Education in Montana

From 8:30-11:00 a.m., in Room 317 of the State Capitol, the Office of Public Instruction will be providing an overview of its general supervision, assessment and data collection and reporting systems to the Office of Special Education (OSEP) staff who will be conducting a verification visit. While this presentation is not an official meeting of the Panel, the Panel members should plan to attend this presentation. The presentation will provide Panel members an opportunity to hear how the Office of Public Instruction implements procedures for the conduct of special education in Montana, as well as to meet the OSEP staff who will be conducting the verification visit.
